

Our Money

Comes from the Timor Sea . . . to where?

All people of Timor-Leste need to know the policies of our next government for managing our petroleum money, for our lives today and in the future, for our children and grandchildren. La'ο Hamutuk and FONGTIL are organizing a public debate among all the political parties:

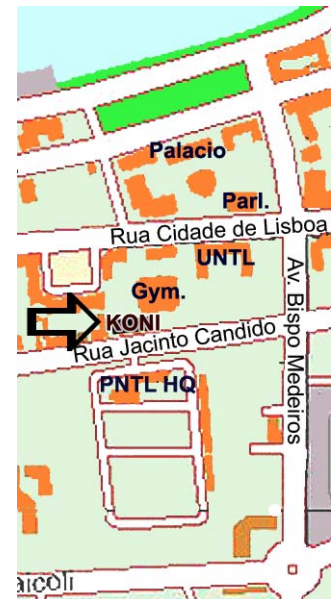

How to Manage Money from Petroleum to Develop Timor-Leste

Thursday, 21 June 2007

8:30 am - 6:00 pm

KONI Building, near UNTL, Dili

Across from the Parliament, past the National University and Gymnasium buildings. Or enter from the south opposite the PNTL headquarters.

Come participate !

In 50 years, Timor-Leste's petroleum will be used up. Our Government should prepare for the future, thinking of ways to reduce our dependency on money from petroleum. Each political party wants to lead our nation. We must understand their thinking about how they will manage the petroleum money before we go to vote.

The debate will be in Tetum. English translation will be provided.

For more information call 3325013 or 7279574.
