Formento Building  
Avenida Dom Aleixo Corta Real  
**Dili** Timor-Leste

Dear Mr Gusmão Soares,

**Re: Environment Plan for 3D Seismic Survey**

Please find attached the Environment Plan prepared by Eni Timor Leste SpA for its proposed three-dimensional (3D) Marine Seismic Survey in Production Sharing Contract (PSC) Blocks S06-01, S06-02, S06-03, S06-04 and S06-05.

The Environment Plan (EP) is submitted to the Government of Timor-Leste, and as agreed with the National Directorate of Oil and Gas (DNPG), it is intended that the designated authority to assess the document will be the National Directorate of Environmental Services (DoNES).

The EP describes the Seismic Survey and the marine environment, and determines environmental risks and mitigation measures, allowing the setting of environmental performance objectives and criteria. If you have any queries regarding the Environment Plan or environmental aspects of the Seismic Survey, please contact Tony Hcynen, Eni's Environmental Advisor, on +61 8 9320 1505.

Yours sincerely,  
**Eni Timor Leste SpA**  
Per:

Alessandro Trombetti  
Exploration Manager
