

REPÚBLICA DEMOCRÁTICA DE TIMOR-LESTE
MINISTÉRIO DAS FINANÇAS
Gabinete da Ministra
- 2009 Ano de Infraestrutura -

OVERVIEW

The Ministry of Finance is pleased to release the 2008 Report on the external assistance to Timor-Leste. The data contained in this report was compiled by the National Directorate of Aid Effectiveness (NDAE) of the Ministry of Finance. The information contained in this report consists of data provided by individual Development Partners representatives.

Only those projects that provide development, humanitarian and emergency assistance are entered into the database. Thus, military and security-related assistance to Timor-Leste have not been included in this report, at this stage. The Government acknowledges the efforts made by these individual Development Partners who have provided updated information in a timely manner.

The reliability of the data recorded is dependent on the cooperation of Development Partners to provide the necessary and accurate information. The most recent update was in February 2009 which is incorporated in this compiled report. It is envisaged that the Government and Development Partners will update project information on a regular basis.

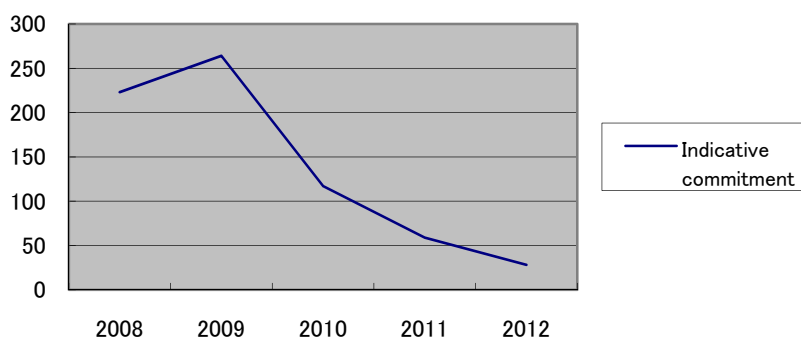

The purpose of this compiled report is to help the Government of Timor-Leste and Development Partners to gain a comprehensive overview of the development assistance extended to the country as well as assisting in policy decision making.

The Government of Timor-Leste is grateful for the cooperation of our Development Partners in updating the database. The production of the report would not have been possible without their continual support.

April 2009

Development Partners Spending in 2008

Development Partners committed a total of \$236.4M for development assistance in Timor-Leste and \$223.0M was disbursed in 2008. The graph below shows the downward trend of assistance from Development Partners in the next 4 years from \$264.0M in 2009, \$117.0M in 2010, \$58.9M in 2011 and \$28.2M in 2012.

In the most recent update in February 2009, NDAE received updated project information from 24 bilateral Donors, 5 Multilateral Agencies and 13 UN Agencies. In addition to 24 bilateral donors, NDAE identified that Czech Republic, Denmark and Belgium also extended assistance to Timor-Leste through UN Agencies.

Bilateral donors' contributions amounted to \$198.8M. Top five bilateral donors in 2008 included Australia (\$52.9M), Japan (\$21.3M), Portugal (\$20.4M), the European Community (\$19.9M) and the USA (\$18.3M). Their spending represents 67.0% of total spending of all bilateral donors.

The disbursed \$223.0M consists of:

- \$211.5M for support to the Government Office and its related sector
- \$11.5M for Non Government sectors whose activities can't be categorized to particular government Ministry (e.g. support to civil society)
- Out of the \$211.5M, \$31.1M is spent for projects related to the Ministry of Health. It is followed by Ministry of Agriculture and Fisheries' \$28.6M and \$21.8M for Ministry of Education (Please see Chart 1 below).

Donors' spending by sectors in 2008 can be seen in Chart 2. The majority of donors spending is attributed to 4 main sectors: Health (15%), Public Sector Management (15%), Education (14%) and Agriculture (14%). Chart 3 shows that Development Partners implement 82 projects with the largest numbers of projects, in Dili. Dili is

followed by Oecusse with 58 projects and Baucau with 54 projects. However it should be noted that existing data doesn't allow breakdown of amounts in districts. NDAE intends to collect information on spending from development partners in the near future.

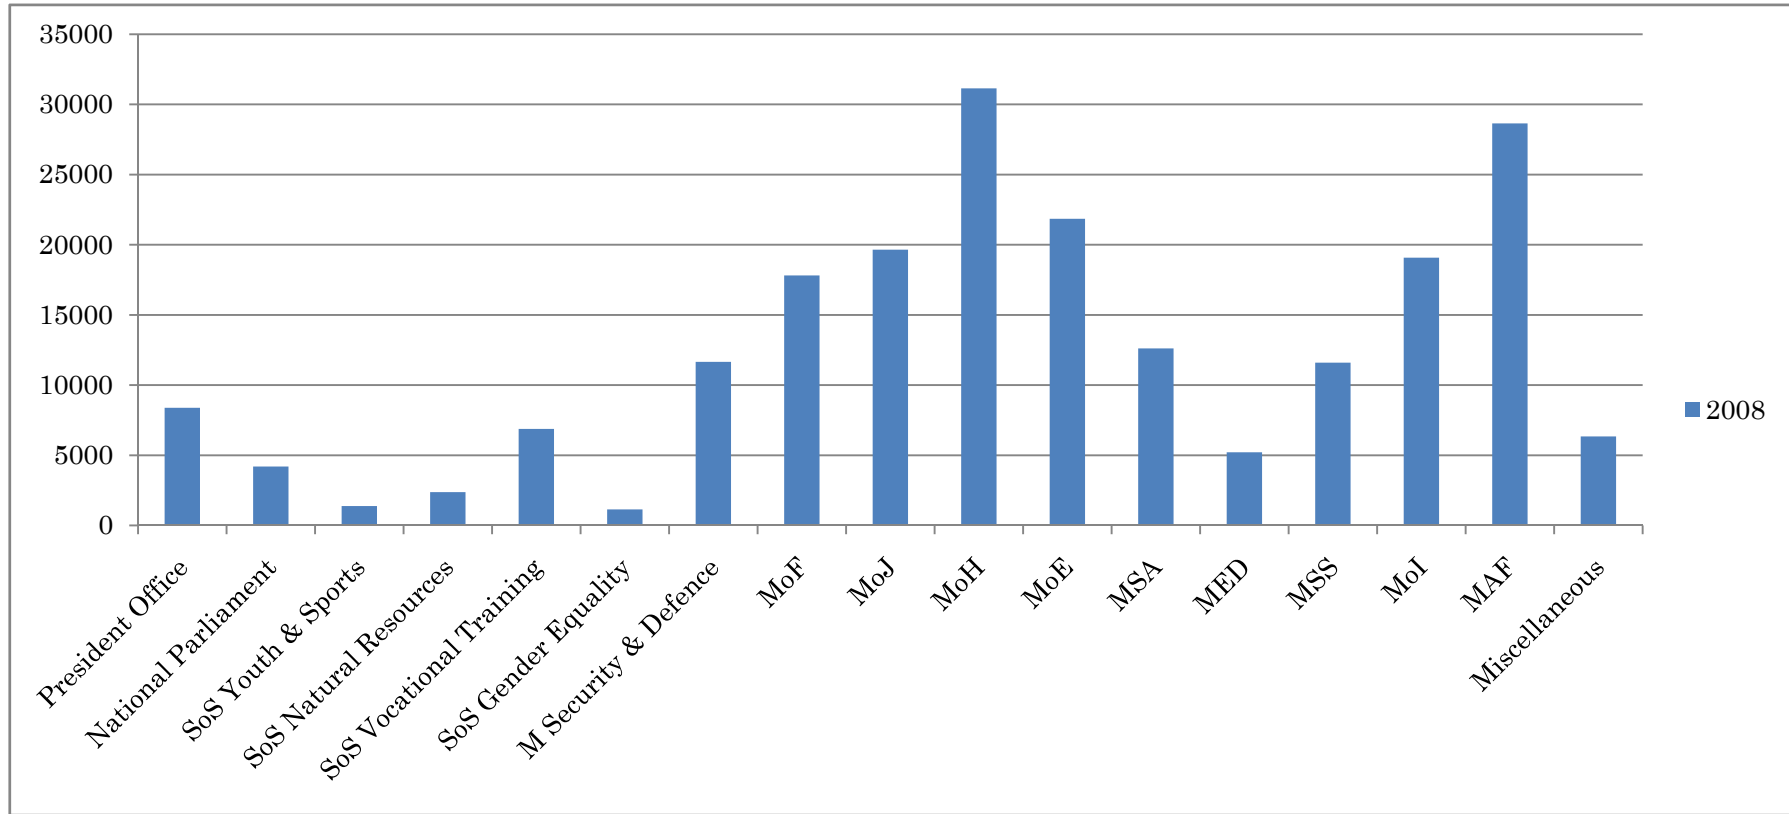

More detailed information is contained in the circulated CD.
