## *La'o Hamutuk Public Meeting*

### **What does Timór-Leste need from the International Community after UNMIT's mandate ends?**

**Tuesday 23 October 2012. 9:00 am – 12:15 pm**

**Dili University (UNDIL), Mascarenhas, Dili**

Uphill from the Alola Foundation, across from the former CNE office

La'o Hamutuk invites the public to participate in a discussion about the mandate of UNMIT in Timor-Leste which will finish this December.

During the mandates of the UN in Timor-Leste since 1999, UN assistance has helped achieve some good results, such as the creation of a democratic state under rule of law, with peace and security. Unfortunately UNMIT has not yet implemented some important commitments, including ending impunity for crimes against humanity committed during the Indonesian occupation. In addition, the UN and the State of Timor-Leste have not yet chosen a sustainable and inclusive development path.

The people of Timor-Leste, together with our leaders, must take responsibility for these gaps after UNMIT leaves.
