## **INPEX Enters Into New Production Sharing Contracts with the Timor-Leste Government**

**Tokyo, Japan** - [INPEX CORPORATION](#) (INPEX) announced today that it has, through its subsidiaries, entered into new production sharing contracts (PSC) with the government of Timor-Leste governing its projects in the former Joint Petroleum Development Area (JPDA) between Australia and Timor-Leste, in light of the delimitation of the maritime boundaries between Australia and Timor-Leste.

Bayu-Undan offshore facility

The Australian and Timor-Leste governments signed the maritime boundary treaty in March 2018. Following the ratification of the treaty, the JPDA has transitioned to Timor-Leste's exclusive maritime jurisdiction, and old PSCs under the JPDA framework have been terminated.

INPEX is currently involved in three projects within Timor-Leste's exclusive maritime

jurisdiction including development of the Bayu-Undan Gas Condensate Field. The three projects will continue to be operated under terms equivalent to the previous arrangements.

The impact of this matter on the company's consolidated financial results is nil.
