

Eni Timor 22-23 B. V.

Avenida 20 de Maio, No. 9, Colmera, Dili, Timor-Leste

Announcement of Public Consultation

Decree-Law No. 39/2022 of 8th June, 1st amendment to Decree-Law No. 5/2011 of 9th February on Environmental Licensing

Public Consultation on draft Simplified Environmental Impact Assessment and Environmental Management Plan

(Annex IV of DM No 47/2017 of 2nd of August)

9th May 2025 from 08:00am until 15:00pm
Timor Plaza (Maubara Room), Dili, Timor-Leste

Marine Seismic Survey **(PSC TL-SO 22-23)**

1. Authorised Person: **Eni Timor 22-23 B. V.**
2. Location of the proposed project: Marine seismic survey area located in the Timor Sea approximately 175km from the southeast coast of Timor-Leste and circa 300km southeast of Dili, Timor-Leste.
3. **Eni Timor 22-23 B. V.** is planning to conduct a marine seismic survey as part of the initial exploration work commitment for Eni operated PSC TL-SO 22-23. The survey covers an area of approximately 1,500km² (50km x 30km) and is located on the Sahul Shelf in water depths ranging from 40 to 180m. **Eni Timor B. V.** proposes to acquire seismic data within the survey area over a period of approximately ten weeks, using towed streamer operations commencing between July and September 2025. Seismic data acquisition will occur with 24-hour operations, although temporary shutdown periods may be required in the event of poor weather or other adverse conditions. The seismic survey will be conducted utilising a specialised vessel which tows an array of receivers (hydrophones attached to streamers) and pneumatic sources below the water surface and generate sound waves using pulses of compressed air. The sound waves, reflected from horizons at and below the seafloor, will be detected and recorded by the receivers, towed by the same vessel to gain images of the subsurface for the purpose of hydrocarbon exploration. The data acquired from the survey will then be processed to produce 3D seismic images which are interpreted to create geological maps and identify any geological features which could be traps for hydrocarbons. The data will help identify the best location for drilling a well. To support the main seismic vessel, there will be a support vessel and three chase vessels to protect the tow vessel and towed equipment from other vessel traffic, and to protect other users of the sea from entanglement or other damage from collisions with towed seismic source.
4. In accordance with Decree-Law No. 39/2022 of 8th June, 1st amendment to Decree-Law No. 5/2011 of 9th February on Environmental Licensing and Decree-Law No. 32/2016 of 17th August on Offshore Petroleum Operations, the proposed project is classified as a **Category B** project and shall subject to initial environment examination process as specified in the referred Decree-Laws.
5. **Eni Timor 22-23 B. V.** shall carry out public consultation on the draft Simplified Environmental Impact Statement (SEIS) and Environmental Management Plan (EMP) prior to submitting the referred documents to the *Autoridade Nacional do Petróleo* (ANP), which acts as the Environmental Authority for the oil and gas sector.
6. The draft Simplified Environmental Impact Statement and Environmental Management Plan are available for public consultation.
7. The draft Simplified Environmental Impact Statement and Environmental Management Plan are ready for public review, during working hours, without any fees, in the following locations:
 - **Autoridade Nacional do Petróleo (ANP)**
ANP's office at City 8 Compound, Rua Has-Laran, Aldeia Fomento, Suco Comoro, Dili, Timor-Leste
Website for public consultation: <https://www.anp.tl/public-consultation-draft-seis-and-emp-for-psc-tl-so-22-23/>
 - **Eni Timor 22-23 B. V.**
Eni's office at Avenida 20 de Maio, No. 9, Colmera, Dili, Timor-Leste

Via scanning of the QR Code

8. The draft Simplified Environmental Impact Statement and Environmental Management Plan are also available for review outside working hours (17:00 – 18:00) at Eni's office at Avenida 20 de Maio, No. 9, Colmera, Dili, Timor-Leste. Feel free to call Eni's reception at +670 330 4000 to organise access to the documents outside of working hours (17:00 – 18:00).
9. **Eni Timor 22-23 B. V.** will not request fees from a person who requested a copy of any of the documents or any part of the documents.
10. A public meeting will be carried out on 9th May 2025 from 08:00am to 15:00pm at Maubara Room-Timor Plaza, Dili, Timor-Leste to discuss the draft Simplified Environmental Impact Statement and Environmental Management Plan, and for **Eni Timor 22-23 B. V.** to receive comments and feedback.
11. Anyone has a right to review and provide comment on the draft Simplified Environmental Impact Statement and Environmental Management Plan.
12. Any comments on the draft Simplified Environmental Impact Statement and Environmental Management Plan shall be addressed in writing to **Eni Timor 22-23 B. V.**'s office on Avenida 20 de Maio, No. 9, Colmera, Dili, Timor-Leste or via email on eniaux.info@eni.com.
13. All comments shall be submitted to the **Eni Timor 22-23 B. V.** by 15th May 2025.
