Part 1: Development Assistance in Combined Sources Budget 2018

As envisaged in Article 23.4 (b) of the Budget and Financial Management Law 13/2009 of 15 October 2009, the General Budget of the State of Timor-Leste must indicate funding by Development Partners (DPs). The Combined Sources Budget (CSB), which is the combination of general state budget and external assistance provided by DPs, is an important concept in Timor-Leste, as external assistance has substantially contributed to the development of Timor-Leste since its independence. Although the relative size of external assistance as a percentage has decreased as a result of the rapid expansion of the state budget in recent years, external assistance has consistently exceeded more than US\$150 million per year for the past 12 years.

External assistance indicated in the Budget Book No. 5 is an integral part of the CSB. In 2018, DPs are preparing to provide a total of US\$244.8 million, of which US\$181.73 million will be provided as grants and US\$61.6 million as concessional loans. Although the “External Assistance” concept includes both concessional loan and non-lending assistance, this Budget Book specifically focuses on non-lending (US\$181.7 million), which is equivalent to 12% of the 2018 Budget indicated in the Budget Book 1. The information on loan assistance is presented separately and explored in depth in the Infrastructure Fund in the Budget Book No. 6.

The information on non-lending assistance in this Budget Book contains the external assistance to be provided by multilateral and bilateral donors to the Democratic Republic of Timor-Leste (RDTL). It includes the external assistance projects executed in direct collaboration with Government Ministries, as well as through Non-Governmental Organizations (NGOs). In Chapter 5, all the external assistance projects to Timor-Leste are presented in accordance with the RDTL beneficiary institutions. It should be noted that the information presented in this Budget Book is derived from the Aid Transparency Portal (ATP), the government database to which DPs are responsible for providing data on all of their contributions, and through surveys provided to development partners. In order to assist the Government in preparing the General Budget of the State for 2018 and for more general aid coordination and effectiveness purposes, DPs are requested by the Ministry of Finance (MoF), GoTL, to update the ATP on a quarterly basis. All DP assistance data presented in this Budget Book was generated from a data set produced on the 25 July 2018 unless indicated otherwise.

Part 2: National Development Plans

2.1 Strategic Development Plan 2011-2030

Timor-Leste's Strategic Development Plan 2011-2030 (SDP) was released in July 2011 and articulates Timor-Leste's vision of development for the next two decades. It is based on "Timor-Leste 2020: Our Nation Our Future," and is aligned with the United Nations' Millennium Development Goals (MDG). The SDP is an integrated package of strategic policies, which aims to transform Timor-Leste from a low income to upper middle-income country, with a healthy, well-educated and safe population by 2030.

The SDP covers four pillars: (1) Social Capital, (2) Infrastructure Development, (3) Economic Development, and (4) Institutional Frameworks. Each pillar sets out the areas and programs that need to be completed to achieve the collective vision of the SDP.

The Social Capital pillar focuses on building a healthy and well-educated society to address the social needs of Timor-Leste's people and promote human development. It covers five main areas: Education and Training, Health, Social Inclusion, Environment, and Culture and Heritage.

The Infrastructure Development pillar is to ensure that the nation has the core infrastructure needed to build a productive, sustainable, growing and connected nation. It covers six areas: Roads and Bridges, Water and Sanitation, Electricity, Seaports, Airports, and Telecommunications.

The Economic Development pillar aims to achieve a prosperous, modern economy and jobs for Timor-Leste's people. It covers five areas: Rural Development, Agriculture, Petroleum, Tourism, and Private Sector Investment.

The Institutional Framework pillar will help to provide an effective framework upon which the three other aspects of Timor-Leste's development will be built. It covers six areas: Security, Defence, Foreign Affairs, Justice, Public Sector Management and Good Governance, Strategic Planning and Investment/Economic Policy and Investment Agency.

With the signing of the Dili Development Pact at the 2011 Timor-Leste and Development Partners Meeting (TLDPM), the Government of Timor-Leste and its Development Partners came to an agreement that the SDP will be the overarching framework for all programs and projects to align with in the future.

2.2 Program of the VIII Constitutional Government

The Eighth Constitutional Government was sworn in on 22 June 2018.

The Government Program summarizes the main public policies to be adopted to reinforce and optimize the sectors of governance and their resources, shortening the path to transform the 2030 vision into reality and is based on five key sectors for the future of the country:

- In the sector of **social capital development**, the program presents a package of measures to maximize its potential, promoting inclusion, empowerment, qualification and health;
- In the sector of **Infrastructure development**, considered crucial for economic and social development, the Government intends to implement a quality infrastructural network, guaranteeing a good cost-benefit ratio and thus sustain productivity, job creation and development of the private sector;
- In the sector of **economic development**, the program presents measures for its modernization and diversification, boosting the productive sectors around three essential industries - agriculture, tourism and oil - with measures that stimulate creativity, innovation, entrepreneurship, enabling increased income opportunities, improved productivity, the ability to generate wealth and the creation of new markets;
- In the area of **Governance Consolidation**, the Government proposes to continue investing in strategic planning for a modern and diversified economy, with the goal of creating 60,000 new jobs per year, reducing poverty by 10% and average growth of the economy above 7%, increasing the contribution of the private and productive sectors, and making feasible the fiscal sustainability.
- In the area of **Good Governance and Anti-Corruption**, the program proposes to implement mechanisms for evaluation, performance and promotion of the principles of transparency, accountability, integrity and leadership, in order to increase confidence in governance and increase public sector competence and efficiency.

2.3 The New Deal for Engagement in Fragile States

The New Deal was presented at the 4th High Level Forum on Aid Effectiveness in Busan, Korea in 2011. Since then, more than 44 countries and organizations have endorsed the New Deal, including Timor-Leste. The New Deal guides development engagement in fragile countries through the promotion of country-owned and country-led pathways towards peace and resilience.

The New Deal was designed to accelerate the effectiveness of international engagement. It represents the first aid architecture in history for conflict-affected states and features three interconnected pillars; five Peacebuilding and Statebuilding goals (PSGs); and two guiding frameworks for implementation: FOCUS, a new way of engaging, and TRUST, a set of commitments by donors and recipient countries alike.

Peacebuilding and Statebuilding Goals (PSGs)

1. Inclusive Politics
2. Security
3. Justice
4. Economic Foundations
5. Revenue and Services

FOCUS

- F: Fragility Assessment
- O: One Vision, One Plan

- C: Compact
- U: Use PSGs to Monitor Progress
- S: Support Political Dialogue and Leadership

TRUST

- T: Transparency
- R: Risk Sharing
- U: Use and Strengthen Country Systems
- S: Strengthen Capacities
- T: Timely and Predictable Aid

The New Deal framework will guide country-led planning, but each process will ultimately be defined by the unique context and challenges within an individual country. Each country -- local and national government actors together with Development Partners, civil society and the private sector -- will develop its own understanding of what the New Deal means, and set its own plans, targets and indicators.

2.3.1 Aid Management Effectiveness Policy

The Aid Management Effectiveness Policy (AMEP) – approved in 2017 - recognizes the importance of development assistance in supporting the nation’s vision for development. Effective development assistance is based on sound working relationships between the Government and the Development Partners. The Government of Timor-Leste continuously seeks to ensure improvement in aid coordination and harmonization through collaboration, shared planning and objectives, and transparency. The AMEP provides guidelines and mechanism for planning, mobilization, implementation and monitoring of development assistance to ensure aid is aligned with government plans and priorities, and effective working relationships with development partners is maintained. Simultaneously, through the AMEP, development partners are encouraged to improve their alignment of assistance to government priorities, improve reporting and transparency of development assistance, and improve mechanisms for monitoring and achieving results, including innovative forms of aid that eliminate duplication and deliver aid more effectively (e.g. through budget support).

The implementation of AMEP is expected to result in a gradual decrease in off-budget project support; improve the reliability of development resources and increase the impact and efficiency of how development assistance is delivered. The overarching goal of the AMEP is based on international agreements to which Timor-Leste and Development Partners have subscribed to; including the Paris Declaration on Aid Effectiveness, the Accra Agenda for Action, the OECD DAC Principles for Good International Engagement in Fragile States, the Addis Ababa Action Agenda and the New Deal.

2.4 Harmonization of the Sustainable Development Goals and the Strategic Development Plan

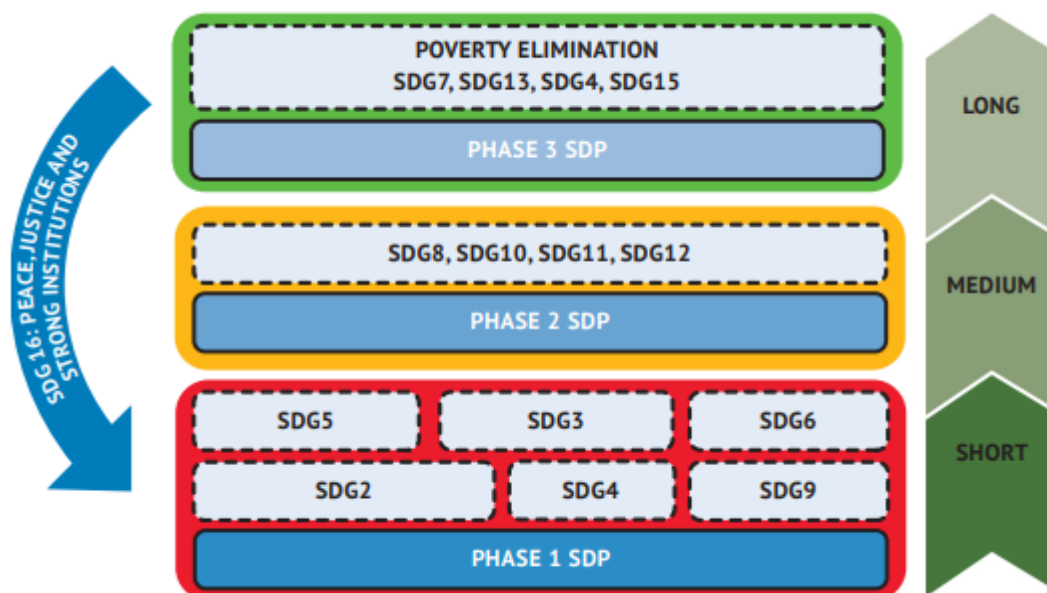

Timor-Leste is a Global Champion for the Sustainable Development Goals (SDGs). The Government of Timor-Leste adopted the 2030 Agenda and Sustainable Development Goals two days before they were formally adopted by the United Nations at the General Assembly on 25 September 2015. On the global stage, the Government of Timor-Leste worked with the g7+ group of countries to successfully advocate for a Goal 16 on peace, justice and effective institutions.

In 2017, the Government of Timor-Leste started a process to develop a national roadmap to achieve the SDGs, as framed by the Agenda for 2030 and the SDG's aims and targets. The roadmap lists the plans and strategies that shaped the development expectation for the country, as well as the institutional systems, policies and structures established to allow and keep progress.

The Roadmap of Timor-Leste to implement SDGs is based upon the Strategic Development Plan 2011-2030, which sets out the series of aims and priorities for national development as described during national consultations to develop SDP and reflecting the expectations of Timorese citizens. SDP also lists the aims and targets, in line with the development and priorities of the country. This frames what the country needs to do to fulfil the SDGs.

Since 2015, the Government of Timor-Leste has been focusing in the short term on achieving the SDG Goal 2 'Nutrition and Food Security', Goal 3 'Health', Goal 4 'Education', Goal 6 'Water and Sanitation' and Goal 9 'Infrastructure'.

Figure 2.4.1 Timor-Leste SDG Roadmap

Part 3: Improved Development Partnership

3.1 Development Partnership Management Unit

The DPMU is situated directly under the supervision of the Minister of Finance. The main responsibility of DPMU is to ensure the effective use of the external assistance provided by DPs to Timor-Leste, so as to guarantee coordination and harmonization in accordance with the development priorities set by the Government.

3.2 Aid Transparency Portal (ATP)

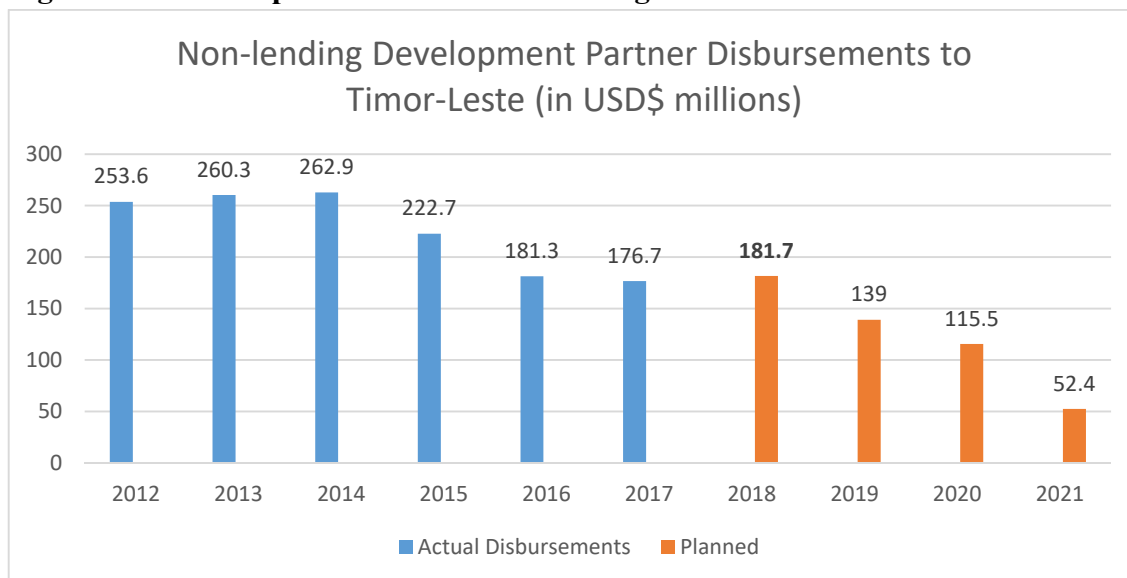

The ATP is a public database that is populated by Development Partners to track all grant assistance in Timor-Leste. The system allows all stakeholders, including government ministries and Development Partners to better understand the level of Official Development Assistance to Timor-Leste. Equipped with the ATP, the DPMU is able to further contribute to preparing quality State Budgets. The creation of the ATP allows for ease of access to current information on all DP assistance, by Government beneficiary institution, region, sector, SDP pillar, DP, providing information on planned and actual disbursements. The information published in this budget book is directly extracted from the ATP. All information in the ATP is directly entered into the system by the Development Partners themselves. The website can be accessed at www.aidtransparency.gov.tl.

Part 4: Trend of Development Assistance to Timor-Leste

4.1 General trend

The amount of ODA to Timor-Leste exceeded US\$200 million from 2011 to 2015 but has experienced a significant downward trend in non-lending beginning in 2015 that has led to the lowest levels of non-lending assistance in Timor-Leste, totalling US\$176.6 million in 2017. ODA as a percentage of the Combined Source Budget has become smaller, decreasing from 23.5% in 2010 to 12% in 2018 on a planned basis. In 2018, a planned total of US\$244.8 million will be provided to Timor-Leste. This includes US\$181.7 million in grants and US\$61.6 million in loans. The graph below highlights trends in non-lending support from development partners. This year, donor's planned disbursements are scheduled to exceed those from the previous two years.

Figure 4.1.1 Development Partner Non-lending Disbursements 2012-2021

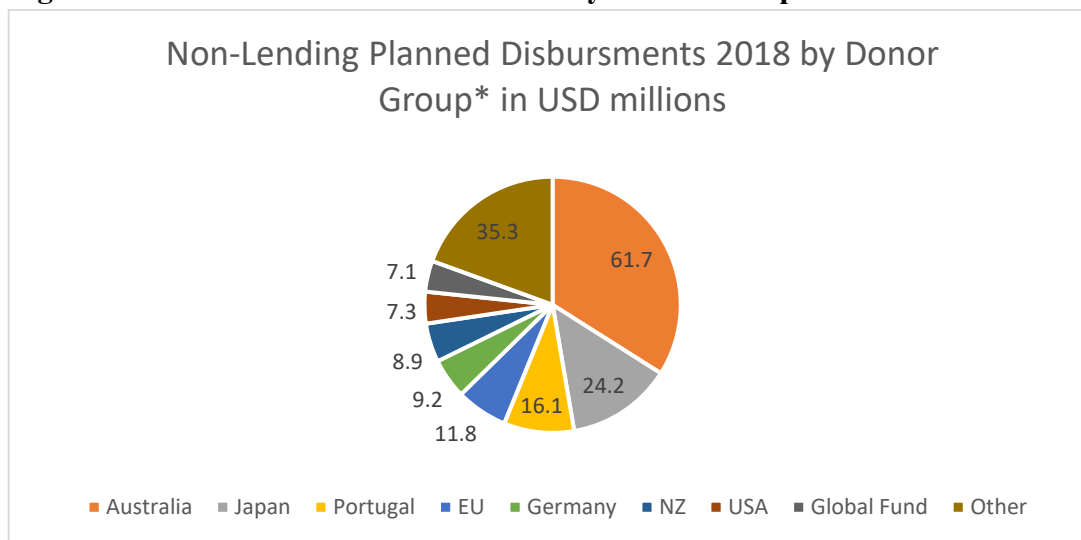

Source: 2012-2015 data was collected from previous budget books; 2016 data on was drawn from the Aid Transparency Portal as of 25 July, 2018.

Forecasted funding more than one year in advance is typically unreliable for several reasons, most notably due to the fact that many donors operate on single year budgets. The dramatic decline in funding shown in the future years above is based on data collected at the project level, thus it does not include donor's funding that has been secured yet not committed towards specific projects. For example, the Millennium Challenge Corporation's future contributions are not included in these figures even though they are likely to contribute significantly towards the donor funding landscape.

4.2 Development partners in Timor-Leste

In 2018 Timor-Leste is scheduled to receive funding from ten bilateral sources and 14 multilateral sources. The five donor groups that have reported the highest levels of planned funding in 2018 are as follows: Government of Australia (\$61.7 million; 34 percent of total), Japan, including Government of Japan and JICA (\$24.2 million; 13 percent of total), Portugal, including funding from Camoes (\$16.1 million; 9 percent of total), the EU (\$11.8 million; 6 percent of total), and Germany (\$9.2 million; 5 percent of total). Please refer to Part 6 for a detailed summary of donor and executing agency disbursements.

Figure 4.2.1 2018 Planned Disbursement by Donor Group

* Grouping by UN Family and International Funding Organizations were excluded from this calculation. Please refer to Part 6 for a detailed summary.

4.3 Alignment to the Strategic Development Plan

As mentioned above, the SDP 2011-2030 and the Government Program are the overarching frameworks for all programs and projects to align with. The planned disbursement of DPs to each pillar and sub-pillar of the SDP in 2018 is indicated in the table below. It should be noted that the table simply shows the amount of external assistance in each SDP category; it does not mean that all projects are strictly aligned to only one sub-pillar.

Among the four pillars, *Social Capital* will be the largest recipient of aid, approximately \$83.8 million, or 46.1% of total planned disbursements in 2018. 2018 will see a continuation of Development Partner support to the Health and Education sub-pillars, accounting for a combined total of over 30 percent of all planned disbursements in the year. The third largest recipient of Development Partner support is the Agriculture SDP sub-pillar. All three of these areas are aligned with the first phase of the SDP/SDG Roadmap.

Table 1: 2018 Planned Disbursements and Number of DPs in accordance with the pillars/sub-pillars of the Strategic Development Plan 2011-2030 (non-lending only)

Strategic Development Plan 2011-2030		2018 Planned Disbursements				
Pillar	Sub-pillar	# of Project	# of Donors	# Executing	(US \$Millions)	% of Total
Social Capital	Education and Training	36	16	14	31.1	17.1
	Health	22	10	10	24.5	13.5
	Social Inclusion	18	11	12	15.1	8.3

	Subtotal					25.7
SDP Undefined		3	2	1	0.6	0.3
Total					181.7	100

*Refers to a project that is executed through the Government, thus reducing the number of agencies involved.

4.4 Aid Type

This year, the DPMU took additional steps to gather more useful information for and from our stakeholders. The tables presented in the following sections categorizes disbursements in the form of grants, technical assistance and unspecified. Grants were defined as *products and/or services necessary for the construction of facilities, provision of equipment; program support; or budget support*. Technical Assistance was defined as *funds to provide for education and training; payments to cover consultants, advisors or teachers, include the cost of associated equipment*. Finally, unspecified is included in cases where development partners did not provide the DPMU with the requested information.

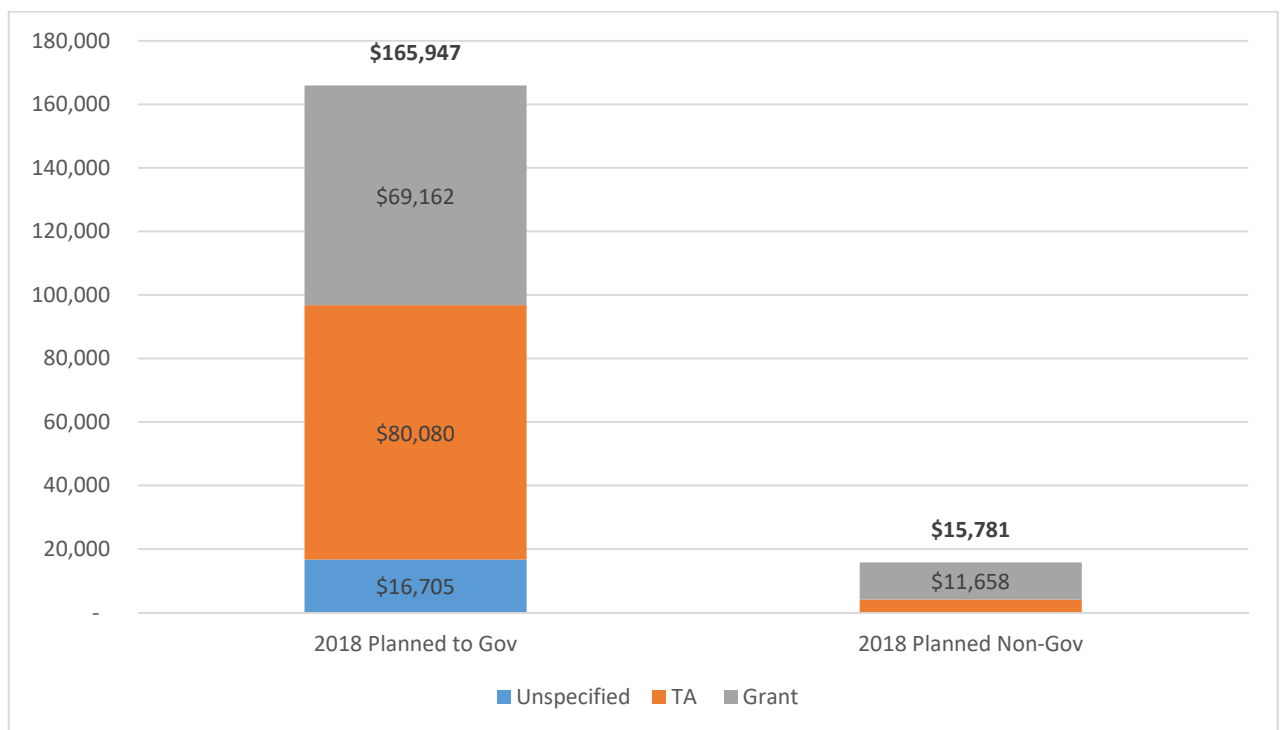

Development Partners were asked to estimate the percentage of funds that were used for grants and TA for each project. Based on the number provided, the DPMU produced the calculations included below. We hope to continue to improve upon the quality and usefulness of the information generated in our reports.

Table 2: TA and Grant Information Project Summary

Projects consisting exclusively of Technical Assistance	70
Projects consisting exclusively of grants	36
Projects with both components	37
Projects for which info was not provided	17
Total number of projects with 2018 planned disbursements	160

According to the data collected, donors assistance directly supporting Government agencies will account for 91.3% of all donor assistance in 2018. 48.3% of that assistance will be funding technical assistance activities, 41.7 % grant activities, and the remaining 10.1% of funds were not identified by donors. A detailed list of these activities can be found below.

Figure 4.4.1 2018 Planned Disbursements by Type (USD Thousands)

Part 5: Development Assistance Projects to Timor-Leste in 2018

5.1 External Assistance by RDTL Beneficiary Institutions* (non-lending)

The following tables provide a more detailed snapshot of planned Development Partner support in 2018. Each table shows the projects that DPs will be implementing that either work directly with the Government or whose outcomes and results benefit that Ministry. These tables provide Government beneficiary institutions with details necessary to create budgets that are more informed by the contributions of development partners. Please note that only Ministries that are scheduled to receive support from 2018-2021. Actual disbursements for 2018 were not included below.

***The designations below largely align to the structure of the previous Government. The brief period between the approval of the VIII Government Structure and this publication did not provide sufficient time to properly allocate donor's programs with certainty. In the next coming weeks the ATP and all designations shall be updated.**

Table 3: External Assistance by RDTL Beneficiary Institution (Planned Disbursements US\$ thousands)

5.1.01 Ministry of Public Works, Transport, and Communications (MoPWTC)

The Ministry of Public Works, Transport and Communication is scheduled to receive a total of US\$ 36.3 million in 2018, the largest development assistance to line ministry recipient relative to other line ministries. Support to the Ministry of Public Works, Transport and Communication in the form of grants accounts for 82.1% of the total planned 2018, or US\$ 29.8 million in absolute terms, while 17.7% of the total 2018 planned disbursement will be provided through technical assistance (US\$ 6.4 million). The largest of these grant projects are executed by JICA and ILO, including “The Project for Urgent relocation of Ferry Terminal in Dili Port”, with funds of US\$ 9.7 million planned for 2018; “The Project for Construction of Upriver Comoro Bridge”, with funds of US\$ 4.9 million for planned 2018, and “ILO’s Australia-funded “Roads for Development (R4D) Phase II” with funds of US\$ 5.2 million planned for 2018.

Project Title and DPs supporting MoPWTC	Project description	Support to Ministry	Results achieved so far	18 Plan	18 unsp	18 TA	18 Grant	19 plan	20 plan	21 plan
The Project for Urgent relocation of Ferry Terminal in Dili Port/ JICA	Construction of Jetty for Ferry in Dili Port.	Constructing of New Jetty	The construction of the project is undertaking.	9,671		0	9,671	1,255	0	0
Roads for Development (R4D) Phase II - R4D Support Program/ILO and Australia	Australia's R4D Support Program (R4D-SP) work to strengthen the capacity of the National Directorate of Roads, Bridges and Flood Control (DRBFC) within the Ministry of Public Work, Transport and Communication (MPWTC) to oversee rehabilitation and maintenance of rural roads using private sector contractors. The first phase of R4D ran from 2012 to 2016	Roads for Development (R4D) is Government rural roads program with technical assistance from the ILO. R4D Support Program works to strengthen capacity of the National Directorate of Roads, Bridges and Flood Control within the Ministry of Public Works to oversee rehabilitation and maintenance of rural roads.	Since April 2017, 489 staff of local construction companies received 1,135 training days on extensive coaching, pre-bidding, technical and managerial aspects of the planning and implementation of rural road works, conducted in collaboration with Don Bosco Training Institution and IADE. Considerable achievements have also been made in capacity building for 95 officials of MDIR and the Municipalities including on-the-job coaching of Municipal Engineers and Supervisors in design contract management and quality assurance/control of rural road works. National senior counterpart staff are exposed to international experiences and networking through participation in international seminars and courses.	5,145		2,470	2,676	4,467	4,345	1,089

TLS-M-MOH - Expanding an integrated and comprehensive approach to malaria control in the Democratic Republic of Timor Leste/ Global Fund	The program approaches are based on the directives of the National Strategic Plan for Malaria Elimination 2017-2021. The 3 main objectives of the program include: - To Interrupt Indegenous Malaria Transmission - To Maintain Zero Mortality due to indegenous Malaria - To Prevent re-introduction of Malaria in District that have already interrupted indegenous malaria transmission	Global Fund funding will contribute 80% of the total budget for universal access to early diagnosis and prompt treatment, malaria prevention and intensified surveillance and recruitment of temporary staff mainly technical officers at the National, District and Post Administrative level necessary for implementation of malaria elimination in the country. Achieving malaria elimination and being certified as "malaria-free" will be a great honour for the country in accordance with the vision of the Ministry of Health to ensure "Healthy East Timorese people in a healthy East Timor".	Timor-Leste has achieved significant progress in reducing its malaria burden in recent years. Number of malaria cases were reduced from 48,000 cases in 2010 to 30 cases with 13 and 17 imported and indigenous cases respectively in 2017. Only 5 malaria cases were reported in the first quarter of 2018. Country is on its way towards elimination. National Strategic Plan for Malaria Elimination 2017-2021 was developed and adopted with the goal of interrupting indigenous malaria transmission by end 2021 and achieving WHO certification by 2023. The country's elimination plan is focused on universal access to early diagnosis and prompt treatment, malaria prevention and intensified surveillance.	3,350		402	2,948	2,940	1,661	0

Tuberculosis in the Democratic Republic of Timor-Leste/Global Fund	Control covering period from 2015-2020 in alignment with the WHO Global "End TB Strategy". This revised NSP is aimed to address challenges those were identified around the TB control during the independent Joint Monitoring Mission (JMM) in 2013. It emphasises a multi-pronged approach to respond to the current epidemiological situation addressing basec DOTS, TB-HIV, MDR-TB and stakeholder involvement in the country. More specifically, there are several strategic intervention under five specific objectives proposed by tuberculosis in Timor-Leste.	for ensuring access to TB care and prevention; strengthening surveillance system; Programme management; TB/HIV - TB/HIV collaborative interventions. Whereas Government of Timor Leste will contribute 21% of the total budget for salaries of staffs; office related costs; supervision; infrastructure maintenance; meetings.	has now established TB services in all 13 districts of the country, with the District TB Coordinators (DTCs) working with the district health management teams in all districts and with 69 Community Health Centers (CHCs) at the sub-district level. Currently, 19 Designated Microscopy Centers (DMCs) are based in public and NGO facilities. Ambulatory care has been provided by 7 NGOs and one is providing inpatient MDR-TB management. Programme has been able to maintain achievement of New Sputum Smear Positive Detection Rate more than 70%. The Programme has achieved 88% treatment success rate among the cohort of NSP cases registered in 2010 which meets the global targets. The treatment success rates have remained around this mark since 2006 after a dip in 2005, during the period of civil strife in the country; All Laboratories entire the Country have been involved in Quality Assurance activities; One Bio Safety Laboratory Level 3 has been in place to carry out Culture and Sensitivity Test (Construction was financially supported by KOICA)							
TLS-H-MOH - Expanded Comprehensive Response to HIV/AIDS in Timor-Leste/Global Fund	This Program (a reprogramming) is designed to build on these activities and increase the coverage of services in all aspects of the continuum of prevention, HIV testing and treatment care. Gaps in the current program were identified through country consultation with a wide range of key population groups, government services and development partners. The priorities to address the gaps identified were continuation and expansion of: Prevention programs for MSM and transgendered person Prevention program for sex workers and their clients Prevention program for the others vulnerable population such as prisoners, prison staff and uniformed personnel Treatment, care and support provided to adults and children HIV/TB collaboration	The only funding source for HIV and STI programming comes from The Global Fund. This grant supports staffs, technical advisors, logistics, medicines, laboratory consumables and programmatic interventions for Timor-Leste. Besides, general population interventions, that is funded by Comissao Nacional de Combate ao HIV/SIDA (CNCS-TL), all other support to MoH comes through the Global Fund grant.	The adult HIV prevalence is declining and encouraging. From a high of 0.5% in 2004-5, the estimated HIV prevalence is 0.1% in 2017. Similarly, the HIV prevalence among female sex workers (FSW) has declined from 3.0% to 0.0% (IBBS, 2004 and 2016) and in men having sex with men (MSM)/Transgendered (TG) has reduced from 1.0% to 0.4% (IBBS, 2004 and 2016). The results till Dec 2017 has been encouraging. The comprehensive key population interventions have reached out to approximately, 900 FSWs, 1700 MSMs and 400 TG population. Approximately, 30,000 HIV tests have been done with 83 positives and 287 people living with HIV/AIDS have been put on life saving anti retroviral treatment (ART). TB-HIV collaborative efforts have led to 25 co-infected patients receiving Anti TB and ART (Program Data, 2017).	1,512		559	953	754	759	0

Maternal and Child Health and Family Planning/ Australia	Australia is helping to provide safe motherhood across East Timor by supporting Marie Stopes International Australia to establish a reproductive health centre in Dili with outreach services to rural areas. Australia is also supporting Health Alliance International to support safe delivery sites in the districts, provide hands-on skills training to midwives, and ensure more advanced treatment is given to mothers and babies. Australia will continue the support to family planning services as it is proven to be one of the most effective, value-for-money ways to reduce maternal deaths.	The Maternal and Child Health Program supports family planning and health in East Timor, specifically design, and monitoring and evaluation activities that support: blood bank development; commissioned research and analysis; family planning, sexual and reproductive health; and maternal and newborn care services.	"The Australian Government through it's implementing partners supporting government policy and strategies on reducing maternal and child mortality rate. Through our service partners we provided more than 24,000 family planning services resulting in the protection of over 37,000. A total of 98 doctors has upgrade their skills in post graduate training programs by RACS. More than 25000 mother enrolled for the Liga Inan program, and this program in 8 municipalities. Support to Ambulance, with over 400 maintenance activities and over 70 % Ambulances on standby. Health Alliance International provided safe and clean delivery training to midwives."	165		0	165	0	0	0

Child Survival and Development/ UNICEF	The Health and Nutrition Programme continues to strengthen the capacity of health systems at national, district, sub-district and suco levels to increase access to and utilization of services and provide timely responses to emergencies. UNICEF supports the Ministry of Health to implement the Basic Services Package in line with the National Health Sector Strategic Plan consists of an integrated set of health and nutrition interventions targeting children below five years and the women of reproductive age. The programme focused on two major projects: Maternal and Child Health (MCH) and Nutrition project addresses under-nutrition challenges faced by Timorese children and women.	Through the health and nutrition programme, UNICEF I supported the Ministry of Health to reduce malnutrition, mortality and morbidity among children under five years. Support will be provided to update and implement health policies, standards and procedures; expand coverage and enhance the quality of high-impact basic services in nutrition, health, and strengthen the health management information system, including the introduction of information technology-based solutions for surveillance and real-time data collection and analysis.	UNICEF Timor-Leste provided technical and financial support to MoH and other developments partners to reduce child mortality and under-nutrition through improve and equitable use of high impact health and nutrition interventions. Some of the significant result showing through survival chances for children of Timor-Leste are shown to have increased significantly. Timor-Leste reduced its under-five mortality rate to 41 deaths per 1000 live births (DHS 2016) from 61 deaths per 1000 live births in 2009 (DHS 2009/10), a one-third reduction in child mortality within five years. Nutrition services delivery capacity was established within the National Primary Health Care (PHC) network nationwide.	156		81	75	156	156	0

Basic Education/ UNICEF	The Education programme supports the Ministry of Education in strengthening quality pre-school and basic education through the following approaches: a) capacity enhancement at central, municipal and school level; b) support modelling of interventions for informed policy and planning processes, e.g. community pre-schools initiative, advocacy for early childhood development policy; c) improve the quality of pre-school and basic education through Child Friendly Schools (CFS) approach, inclusive education for all children and innovative approaches; and d) empower children, parents and their families to be more engaged in education. UNICEF also supports education sector coordination engaging various Education development partners.	UNICEF provided technical and financial support to the MoE in implementing interventions aimed at improving access to quality pre-school and basic education. The activities were also designed to improve capacity of MOE officials in various areas, including on positive discipline, child developmental milestones and early childhood development, positive hygiene practices, and engaging parents and communities. To strengthen MOE capacity in measuring students learning outcomes, a capacity needs analysis was initiated, a first in the country. Expected to be completed in mid-2018, the analysis will help MOE and development partners to better target capacity development support and to undertake learning assessments.	UNICEF Timor-Leste contributed to the approval of the Inclusive Education Policy, draft ECD Policy, an education sector analysis report, analysis of census 2015 data in relation to education, updated education emergency contingency plan, positive discipline integration in national teacher training, re-establishment of Student Councils in schools, providing children in remote areas access to community pre-schools, constructed new school buildings in 5 schools, and facilitated improved access to gender sensitive toilets with water in schools. These interventions contributed to improved net enrolment rate for Grades 1-6 reaching 91% (girls: 96%; boys: 87%) based on MOE 2017 data.	156		51	105	156	156	0

5.1.04 Ministry of Agriculture and Fisheries (MAF)

The Ministry of Agriculture and Fisheries is scheduled to receive support with a total value of US\$ 24.2 million in 2018. Out of the total planned disbursements, 44.9% of the total planned disbursements account for grant projects, or US\$ 10.9 million in absolute terms, while 50.3% of the total planned disbursement is technical assistance (US\$ 12.2 million). The grant project with the largest planned disbursement for 2018 is funded by the

World Bank, namely “Timor-Leste: Sustainable Agriculture Productivity Improvement Project” with US\$4.0 million planned for 2018. The “Partnership for Sustainable Agroforestry Project,” funded by the European Union and Germany is the technical assistance project with the largest planned disbursement for 2018, accounting for US\$ 4.7 million.

Partnership for Sustainable Agroforestry Project (PSAF/ GIZ and EU	The project aims to contribute to a peaceful, inclusive and sustainable development in Timor-Leste through improved rural access, the creation of employment, economic and domestic revenue opportunities and a durable reduction in food insecurity and under nutrition in rural areas. The project has two components, the component 1 is about Sustainable Agroforestry implemented by GIZ. This component is financed by the European Union (13 million Euros) and German Government (5 million Euros) the component 2 is about rural road to provide access to the project areas (Agroforestry areas) implemented by ILO (this component is funded entirely by the European Union.	The project works with the MAF, Directorate General of Forestry, Coffee and Industrial Plants, National Directorate of Forestry and Watershed Management for implementing a Sustainable Agroforestry in Timor-Leste. MAF Directorates at Regional and Municipal Level are also direct partners in the implementation of the project. One of the key fields of intervention in this project is on the improvement of Institutional and Organizational Framework for Agroforestry	The project is still at a very early stage of it's implementation (still at inception phase - first year), still no information on results achieved	4,718	0	4,718	0	4,225	4,225	4,225
Timor-Leste: Sustainable Agriculture Productivity Improvement Project (SAPIP) - P155541 - TF0A2869 & TF0A0236 /WB	SAPIP will be implemented in four watersheds, located in the municipalities of Raumoco watershed (Lautem), Be Lulic watershed (Ainaro), North Loes watershed (Liquica) and Tono watershed (Oecusse). SAPIP is structured around 5 components: Integrated watershed/sub-watershed agriculture development planning Smallholder organization, advisory support and training Sustainable watershed/sub-watershed management and support to farmer groups Strengthening MAF's services, planning, programming, coordination and monitoring and evaluation functions Project management and monitoring	Direct support to the Ministry who directly implements the program and manages funds allocation.	The project started at end of year 2016, and in year 2017 the project started with establishment of Project Management Unit (in Dili) and Project Implementation Unit (PIUs) in 4 locations (Raumoco/Lautem, Loes/Liquica, Tono/Oecuse and Belulik/Ainaro). The project started with operations of the PMU, recruitment of the project staff, launching of the project in 4 locations, and also establishment of the Farmers groups. The organization that will implement MAF M&E has been contracted (FAO).	4,000		0	4,000	5,000	5,000	3,200

USAID's Avansa Agrikultura Project / USAID	Avansa Agrikultura (advance agriculture) will contribute to acceleration of sustainable and inclusive economic growth in the agriculture sector in Timor-Leste. This project is part of the USAID efforts to assist Timor-Leste to become more prosperous, healthy and democratic. Avansa Agrikultura is designed to integrate economic growth with two Presidential Initiatives in order to make significant progress against the goals and objectives described under the Feed the Future (FTF) and the Global Climate Change (GCC) Initiatives through advancements in private sector led growth. Building upon Development Agriculture Community (DAC) which is ending in the Second Quarter of FY 2015, Avansa Agrikultura will support the Ministry of Agriculture (MAF) Timor-Leste in achieving its Strategic Plan (2014-2020) through improvements to agriculture-related training and extension, introducing drip irrigation systems, and promoting cultivation of high-value vegetables as cash crops.	The project helped establish the Horticulture Working Group. The working group contributes to efforts of the Ministry of Agriculture and Fisheries (MAF) in formulating relevant policies and laws affecting agriculture and forestry sectors such as, supporting the drafting of a Decree Law for Pesticides; the National Quarantine Office to improve inspection procedures; the MAF to conduct international site visits; a Singapore study tour for export opportunities; the Café Asia trade fair; an Indonesia trip to improve access to seeds and Ministry of Commerce Industry and Environment (MCIE); and, collaborated with MCIE to support project farmer field days	<ul style="list-style-type: none"> Annual farmer incomes increased from \$250 to \$1,620 in targeted localities. Farmers have increased savings by 178 percent. More than 46 percent of savings and loan club members are female, and they have doubled their weekly savings rates. Stakeholders have invested \$2.2 million back into agriculture. California Frigo strawberry plants were distributed in Aileu, Ainaro, and Ermera. Some of the farmer groups' incomes have increased by nearly 320 percent from \$1,200 to \$5,000 since the activity began. Improved the nutritional intake of children aged 6-23 months. 	1,164	1,164	0	0	2,884	2,884	0

Strengthening Community Resilience to Climate-induced disasters in the Dili to Ainaro Road Development Corridor, Timor-Leste. / UNDP and GEF	The DARDC Project comprises joint investment by Government of Timor-Leste and World Bank to upgrade and strengthen the climate resilience of the road infrastructure linking Dili to capitals of Aileu and Ainaro Districts. The problem that proposed LDCF project seeks to address is that climate change is expected to increase damage to road infrastructure in DARDC resulting from an increased intensity of climate-induced disasters. Damage to road infrastructure is expensive to repair and restricts: i) economic development; ii) market access; iii) access to services such as education and health care; iv) evacuation during natural disasters; v) provision of disaster relief.	Support to protect critical economic infrastructure for sustained human development from climate induced natural hazards (flooding, landslides, wind damage) through better policies, strengthened local DRM institutions and investments in risk reduction measures within the Dili to Ainaro development corridor	Annual Report Completed: DRM Manual has been finalized, 220 Municipal officials trained, disaster online database launched; The top up grant modality has been finalized and launched. 7 projects under the top up grants are currently being implemented; Two nurseries have been established to produce 90,000 seedlings, Fukuoyak training completed, 200 check dams built to protect community infra-structure.	550		440	110	300	0	0
Aquaculture Development/ NZ	To meeting government nutritional goals by increasing direct access to reasonably priced fish for the rural poor, link producers with domestic and export markets, and deliver economic benefits for aquaculture farmers.	This activity is to support the Ministry of Agriculture to increase the production of Gift Tilapia as well as to implement Aquaculture Strategy Plan from 2011-2030	<ul style="list-style-type: none"> • The successful spawning and production of Genetically Improved Farmed Tilapia (GIFT) at the Gleno Hatchery for distribution to farmers. • 850,000 Sex Reversed Tilapia (SRT) fingerlings have been produced in the first year. • Upskilling of National Directorate of Aquaculture (NDA) staff at Gleno in tilapia hatchery techniques is continuing. • Continued maintenance of genetic quality of GIFT tilapia broodstock. • To date over 1 million fingerlings from the Gleno hatchery have been supplied to farms in 12 Municipalities except Oecusse. • 68 farmers have been trained on tilapia aquaculture for the first production cycle following a Farmers' Field School (FFS) approach has been completed. 	475		0	475	0	0	0

(GCCA) Programme Timor-Leste 336310/ GIZ and EU	making the communities living in selected sub-districts vulnerable to climate change risks are capacitated to cope with climate change effects through the sustainable management of their natural resources as well as mobilizing communities in participatory, inclusive and conflict sensitive manner	change adaptation practices following an integrated watershed management approach, Develop a functional and fully operational agro-meteorological system for data collection, storing and information sharing for different kind of users (AGROMET). Implementation of Agroforestry nursery network	problem awareness. With the support of GCCA-TL, the agro-meteorological department in MAF developed its strategic plan, based on a sound capacity needs assessment. First maps on soil texture and climate change predictions are distributed to the communities, which will help their current and future (land use) planning. Key officials are trained on climate change adaptation and facilitation practices. Methods are in the field testing. Over 200000 trees of different species for energy, food, industry and soil protection were planted by 655 households as an effort to tackle climate change risk							
Global Climate Change Alliance Programme / Camões and EU	Aumentar a capacidade das populações de distritos timorenses mais vulneráveis, para lidarem com os efeitos das alterações climáticas, através da gestão sustentável dos recursos naturais e da utilização de mecanismos de desenvolvimento local, à sua disposição, num processo participativo e inclusivo. O projeto propõe-se intervir junto de um universo de cerca de 200 famílias timorenses, mas também junto de entidades oficiais como o Ministério da Agricultura e Pescas de Timor-Leste. Até ao momento foram dados importantes passos na recuperação das condições ambientais ou na melhoria da fiabilidade dos instrumentos de monitorização meteorológica em vários municípios, entre outros.	No âmbito do resultado 1, o programa trabalha diretamente com o departamento ALGIS do MAF na capacitação dos técnicos e na melhoria das suas condições de trabalho – equipamento de escritório, logística, comunicações e transporte que ajudam os técnicos do departamento a desempenhar correta e atempadamente as suas funções. No Resultado 3, as atividades agroflorestais implementadas nas diferentes comunidades são acompanhadas pelos técnicos e extensionistas do MAF e muitas servem de formação e demonstração a esses técnicos do MAF. Realizadas formações, apoiadas pelo projeto, com participação de técnicos do MAF, incluindo uma formação no estrangeiro sobre gestão agroflorestal sustentável.	Resultado1: Apoio à aquisição e instalação de 7 estações agrometeorológicas automáticas (EAA) com envio remoto. Criação de um conceito de gestão para todas as 44 EAA da rede nacional a cargo do MAF. Apoio à criação de um sistema nacional de armazenamento e partilha on-line de informação agrometeorológica com dados recolhidos pela rede de 16 EAA. Apoio à formação dos recursos humanos do Dep. ALGIS do MAF na manutenção e tratamento de dados das EAA. Resultado 2: Participação e organização de diversas ações de sensibilização sobre Alterações Climáticas para o público geral e outras especificamente para as populações rurais. Resultado 3: Desde 2014: apoio à criação de 58 viveiros agroflorestais nas comunidades alvo em Ermera e Liquiçá. Mais de 205 mil árvores e outras plantas plantadas. Apoio Instalação de 50 pomares de pitaia (dragon fruit). Mais de 100 plantações agroflorestais melhoradas e diversificadas.	338		169	169	0	0	0
Preparatory Assistance for the First Timor-Leste Agriculture Census (TLAC)/ FAO	The 2015 National Population and Housing Census (NPHC) integrated improved Agriculture Module as basis to frame the first TLAC. The two national institutions that will lead the TLAC jointly are: the Ministry of Agriculture and Fisheries (MAF) and General Directorate for Statistics (DGS) of the Ministry of Finance (MoF).	TA was provided strategizing the implementation of the first agriculture census.	this project was an earlier support to facilitate the designing of the agriculture census. 	The government is planning to undertake the first census of agriculture during 2018. Given the budget needed, donors' grants are critical for the exercise. This project will play a catalytic role in the whole process by starting the preparatory activities for the TLAC, assisting the government in planning budgeting and resource mobilization. FAO's involvement in planning of the census will boost the donor confidence in ensuring that a methodologically sound census will be carried out.									
Atsabe Rural Development Project for Improving of Livelihood in Ermera District / JAPAN	Technical training for improving agricultural production in Atsabe	Supporting Ministry of Agriculture and Fisheries by providing trainings for agriculture techniques to farmer in Atsabe	Trainings on agricultural techniques were provided for farmers in target communities, and some kinds of vegetables were planted as test case to identify suitable kind of them for the target areas	200		150	50	0	0	0
Quinta de Portugal – Maintenance/ Camões	Contribute to the improvement of national food security by encouraging diversification in crop yield production and improved agricultural practices. Main results of the project: 1. Reinforcing and improving agricultural practices, and productivity, of local farmers. 2. Stimulate the diversification in the production of redemption crops, adapted to the edaphoclimatic conditions of the production zones. 3. Establish new partnerships and interventions in the agricultural area, with public entities and international institutions.	Phase II continued the long partnership with the Ministry of Agriculture and Fisheries of Timor-Leste, in particular through the Aileu Municipal Directorate of Agriculture. The activities of the Project have benefited this institution, mainly through the partnership in the activities of implementation of agroforestry demonstration fields, in support of groups of community farmers in the Municipality of Aileu. The technicians of this institution were also technically benefited through their participation in the training actions on improved agroforestry techniques and in the field days organized by the Project.	Located in the Municipality of Aileu, continued the bilateral cooperation activities between Portugal and Timor-Leste in the rural development sector. The project increased its areas of agroforestry experimentation and demonstration, especially in value-added crops (spices, fruit trees and forestry), conducted technical training and field days to train Timorese farmers and technicians in improved agroforestry techniques and continued production of seeds and plants through its central nursery to support the Project activities and the Ministry of Agriculture and Fisheries of Timor-Leste.	176		88	88	0	0	0

Consolidating the Democratic Rule of Law and Peace through a strong Justice System in Timor-Leste (Revised Justice System Programme)- (00088880)/ UNDP with JAPAN and KOICA funds	UNDP's Justice System Programme (JSP) has focused on supporting the justice sector to develop institutional and human capacity. It has worked with all the key institutions: the Courts, Prosecution, Public Defenders, the Ministry of Justice (including the corrections component) and the Legal Training Centre. Building on the positive results achieved to date, the new project phase (JSP Phase IV) will systematize and improve mechanisms for policy-making, coordination, and strategic planning. The exit strategy will be based on an assessment of resource needs and an agreed, detailed plan on how the institutions will fill them.	Supporting the justice sector to develop institutional and human capacity	The support provided to courts has shown that criminal cases newly registered at four local district courts has increased year by year, total 2,912 cases in 2015 has rose by 11% to 3,227 new cases in 2016. the legal institutions in Timor-Leste, the Justice System Program has been supporting the Legal Judicial Training Center through its magistrates course and continuing legal education and as of December 2016 Timor-Leste has produced 34 judges, 33 Prosecutors, 31 Public Defenders, 99 Private Lawyers, and 21 notaries. The mobile courts has brought justice closer to community especially vulnerable groups including women and poor people.	1,200	0	900	300	0	0	0
Child Protection and Participation Programme/ UNICEF	The Child Protection programme strategy aims at steadily strengthening and enhancing children's protective environment in Timor-Leste through strengthening justice for children and Child and family welfare system. For justice for Children, UNICEF collaborate with Ministry of Justice, to	UNICEF supported to Ministries of Social Solidarity and Justice, the Secretary of State for Youth and Sports (SSYS) , the National Police of Timor-Leste (PNTL) and the National Commission on the Rights of the Child	The social welfare system in Timor-Leste was strengthened through capacity building of the social welfare workforce, knowledge and skills of parents on positive parenting through parenting education sessions. Australian Direct Aid Program/ Australia	The Direct Aid Program (DAP) is a small grants program funded from Australia's aid budget. Managed through 66 Australian embassies and consulates overseas. The goal of DAP is to advance developmental objectives and address humanitarian hardship in developing countries, while at the same time fulfilling Australia's international relations and public diplomacy objectives. DAP is available on a not-for-profit basis to individuals, community groups, and NGOs engaged in development activities in countries that are eligible for official development assistance and focuses on supporting small-scale development projects and activities that involve the beneficiaries in the identification, design and management of the projects.	DAP mainly supported Local NGOs which run either by Timorese nationals and Australians. Maximum per NGO received is AUS 60,000. The outcomes have contributed to areas such as gender equality, access to justice, security report, women empowerment and environmental causes.	167		0	167	167	167	0

Strengthening the capacity of Timorese Non-Governmental Organisations in writing proposals, managing and reporting EU grant procedures/ EU	The global objective of the contract is to increase NGO capacity to perform their roles as independent development actors more effectively. The specific objective is to strengthen the capacity of Timorese NGOs in proposal writing, project management and management of grant contracts under EU procedures.	Two Trainings	11		11	0	0	0	0
Say NO to Gender-based Violence in Timor-Leste/EU	The overall objective of the action is to contribute to the creation of an enabling environment for women and girls to claim and access their rights for a life free from gender-based violence (GBV). The specific objective is to develop a replicable model to prevent and fight against gender-based violence in Timor-Leste.	n/a - the project will start in July 2018					160	160	0
Monitoring and Evaluation - Buka Hatene/ Australia	M&E House – Buka Hatene is a specialist M&E provider that will help support people delivering the aid program to collect and use performance information, in both individual investments and across the whole of the Australian aid program. The key objective of this investment is to improve the quality of the performance of the Australian aid program in Timor-Leste, to maximise the benefits of the aid to the people of Timor-Leste. One way to do this is to improve how we monitor and evaluate our programs through M&E House-Buka Hatene.	M&E House (Buka Hatene) is a new activity which just started in late January 2017. The activity just completed its inception period. It is too early to report on its result as the activity just started its actual implementation phase.					1,852	1,633	31
